

# Risk Management and Patient Safety in Outpatient Methadone Treatment

## SAVE THE DATE

### WEBINAR AND CONFERENCE

**Webinar** **AUGUST 26** 2 hours Overview - 1:00 - 3:30 EDT

**Full Course** **OCTOBER 22** 1 day University of Illinois at Chicago Forum Center

#### Audience

All practitioners involved in the direct care of patients seeking help for opiate dependence.

#### Course Description

This 2-hour webinar will be limited to 100 attendees and will feature expert faculty discussing current issues of clinical care in methadone treatment and risks associated with patient care, including liability. It will also offer brief Q&A opportunities and be an introduction to the full day October 22 conference in Chicago. Based on interest, the webinar may be rebroadcasted on September 1 and 23, 2009.
