Twelve Step Facilitation

The AA slogan “Keep coming back. It works— if you work it!”, often recited at the end of meetings, echoes the aim of Twelve-Step Facilitation (TSF) therapy: to support and encourage attendance and involvement in twelve-step self-help group. This Series will provide an introduction to TSF, including a rationale for using it, supporting research and treatment models.

TSF therapy refers to independent treatment interventions designed to familiarize patients with the 12-step philosophy and encourage participation in 12-step activities. *Continue reading . . .*
