Introduction
The Prairielands Addiction Technology Transfer (ATTC) conducted a survey among South Dakota’s Native American and non-Native substance abuse programs to discover what “training gaps” existed. Most clinical supervisors indicated that many of their counselor trainees were not able to pass the International Certification & Reciprocity Consortium (ICRC) Written and Oral Exams. This information formed the basis for the original ICRC Written Exam Review Training, currently titled Alcohol & Drug Exam Review Training.

The ICRC Written Exam Review Training Program was first offered in August 2001 with the Oral Exam Review and Case Study trainings added later to the Prairielands ATTC South Dakota Training Programs.

In 2008-2009, Drs. Anne Helene Skinstad, Prairielands ATTC Project Director, and Duane Mackey, Prairielands ATTC Coordinator of Native American Initiatives, were awarded the Native American Center of Excellence grant by the Substance Abuse and Mental Health Services Administration, Center of Substance Abuse Treatment to address specific Native American issues and training needs. The Prairielands ATTC Native American Center of Excellence Grant provides continued funds for the dissemination of the Alcohol & Drug Exam Review Training.

The Alcohol & Drug Exam Review Training is offered twice a year, February and July. For further information regarding this training series please contact:
